

Holes

Essential Vocabulary & Concepts

This “assessment” will be different from a traditional assessment. You will be in charge of working with your study groups to teach the class about the following concepts. You will want to *define each of the terms*, and *provide examples* from Holes. You are encouraged to use visuals in your teaching (e.g., chart paper, illustrations, PPT presentation.) Your presentation needs to be between 5-8 minutes long. The “General Grading Rubric” will be used to assess your work. Due date: _____

- About the author, Louis Sachar
- Palindrome
- Simile
- Metaphor
