

Presentation Card Tips

- Use a different color for a new accent or to emphasize something
- For a hard word, write the word the way it's supposed to sound
- Write on every other line so you can see all of your text
- Use a new card for a new topic
- Write in any actions you want to add - you may forget them when you're presenting
- Draw a little eye to remind you to look up, a megaphone to remind you to speak louder etc.
