

Map Making Using Google Earth

Task: You are to create a hand-drawn map of our school's neighborhood using Google Earth.

Procedure:

1. Once you open **Google Earth** and enter our school's address (7654 Herschel Ave. in La Jolla), decide which view you would like to map (e.g., Junior Yard, Senior Yard, whole block).
2. Use the different views to add detail to your map.
3. Use the "ruler" tool (set on "feet") to measure the length and width of buildings, streets, etc. All buildings and streets must be drawn to scale.

To Include:

1. Map scale
2. Map grid
3. Legend/key
4. Labels
5. Symbols
6. Compass rose

****Refer to rubric for grading specifics.**
